**RULING ON ENTITLEMENT<sup>1</sup>**

On May 17, 2024, Rhona Page filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that she suffered left shoulder injuries related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on October 10, 2022. Petition at 1. Petitioner further alleges that the vaccine was administered in the United States, her symptoms lasted for more than six months, and neither Petitioner, nor any other party, has ever filed any action, or received compensation in the form of an award or settlement, for Petitioner’s vaccine-related injury. Petition at ¶¶ 2, 11-13. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 24, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that Petitioner's alleged injury is consistent with SIRVA as defined in the Vaccine Injury Table in that "petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain and reduced range of motion [were] limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 4. Respondent further agrees that the records demonstrate that Petitioner suffered the residual effects of her condition for more than six months and has satisfied all legal prerequisites for compensation under the Vaccine Act. *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
